

Design a Stained-Glass Window

In this chapter, you learned more about the Holy Trinity. Follow the directions below to find out how you can make your own stained-glass window of the Holy Trinity.

1. Visit your parish church or search the Internet to see examples of stained-glass windows.
2. Gather crayons, waxed paper, construction paper, and scissors.
3. Draw a picture of the Holy Trinity on a piece of waxed paper.
4. Then place another piece of waxed paper on top of your drawing. Iron the paper. (Be sure the iron is not on a "hot" setting.)
5. With construction paper, frame your drawing.

Hang your stained-glass art piece in a window or near a lamp so that light can shine through.
