

## Brainstorming Mass Experiences

1. Invite the children to close their eyes and quiet themselves.
2. Encourage them to silently recall some of the things they see, hear, say, taste and do when they participate in Mass.
3. Make five columns on the board, labeling them with these categories: We See, We Hear, We Say, We Taste, and We Do.
4. After a few minutes invite class members to share their recollections with the class.
5. Record the children's responses on the board, listing each under the appropriate category.
6. Tell the class that in the next few sessions they will see why these experiences are an important part of celebrating the Mass.
